OVERVIEW:

Ace-Sil® is the classic Microporous hard rubber separator that has been the industry's leading premium-quality separator for nearly 80 years! Ace-Sil is formulated from natural rubber, amorphous silica, sulfur, and other ingredients.

With a life expectancy of up to 20+ years, Ace-Sil is ideal for backup power applications used in telecommunications infrastructure, nuclear power plants, military facilities, and other UPS applications.

FEATURES:

- Available in cut piece only
- With or without glass mat
- Excellent recharge characteristics
- Improved battery cyclability
- Up to 20+ year life expectancy
- Heavy-duty, deep-cycle applications
- Long and reliable backup power
- Vulcanized rubber separator

APPLICATIONS:

UPS

NUCLEAR
POWER

MILITARY

RESERVE
POWER

TELECOMMUNICATIONS

EMERGENCY
BACKUP

INVERTER
POWER

MINING
