CONTENT

OVERVIEW:

DuroForce™ CL offers many advantages for major industrial lead-acid battery manufacturers, such as excellent oxidation resistance, high volume porosity, high mechanical strength, low acid displacement, low black residue from leachable oils, and low electrical resistance.

FEATURES:

- Available in cut piece and roll form
- Available for flat plate/ tubular designs
- High oxidation resistance
- Wide variety of dimensions
- Straight, diagonal, sinusoidal ribs
- With or without glass mat

APPLICATIONS:

FORKLIFT
