**60%**  
VOLUME  
POROSITY

**17%**  
TOTAL OIL  
CONTENT

**350%**  
ELONGATION  
(CMD)

**14 N**  
PUNCTURE  
RESISTANCE

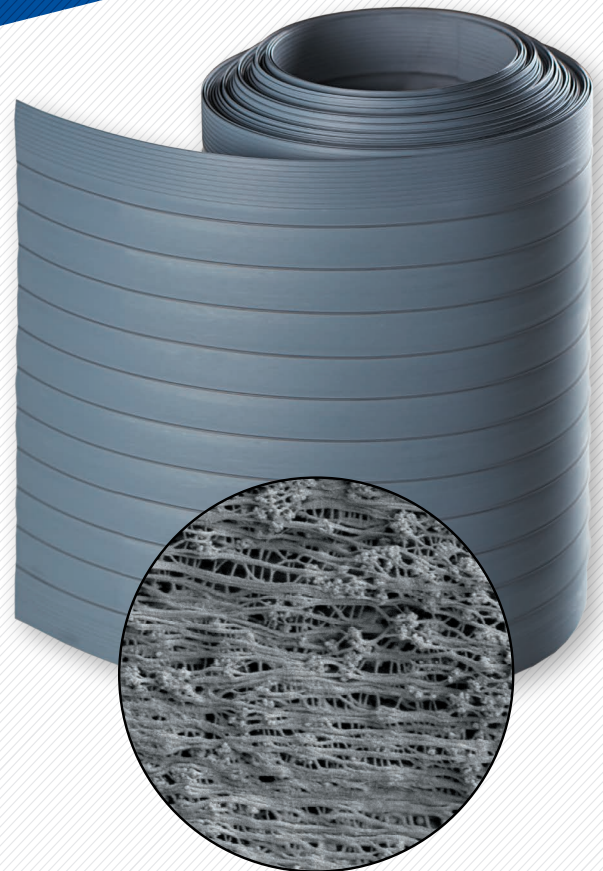

## OVERVIEW:

DuroForce™ Ultra offers backwebs as low as **150 µm**, which provides high functionality without loss of mechanical strength.

DuroForce Ultra also offers many other advantages for lead-acid battery manufacturers, including high puncture and oxidation resistance, high porosity and wettability, low acid displacement, and low electrical resistance.

## FEATURES:

- Available in roll form
- Available with mini ribs on the negative side
- High puncture resistance
- High wettability
- Low ER
- With or without glass mat

## APPLICATIONS:

AUTOMOTIVE  
SLI

TRUCKS

BUSES

MOTORCYCLES

MARINE
